1. Purpose of the Fund
2. Roles and Responsibilites
3. Our Investment Approach

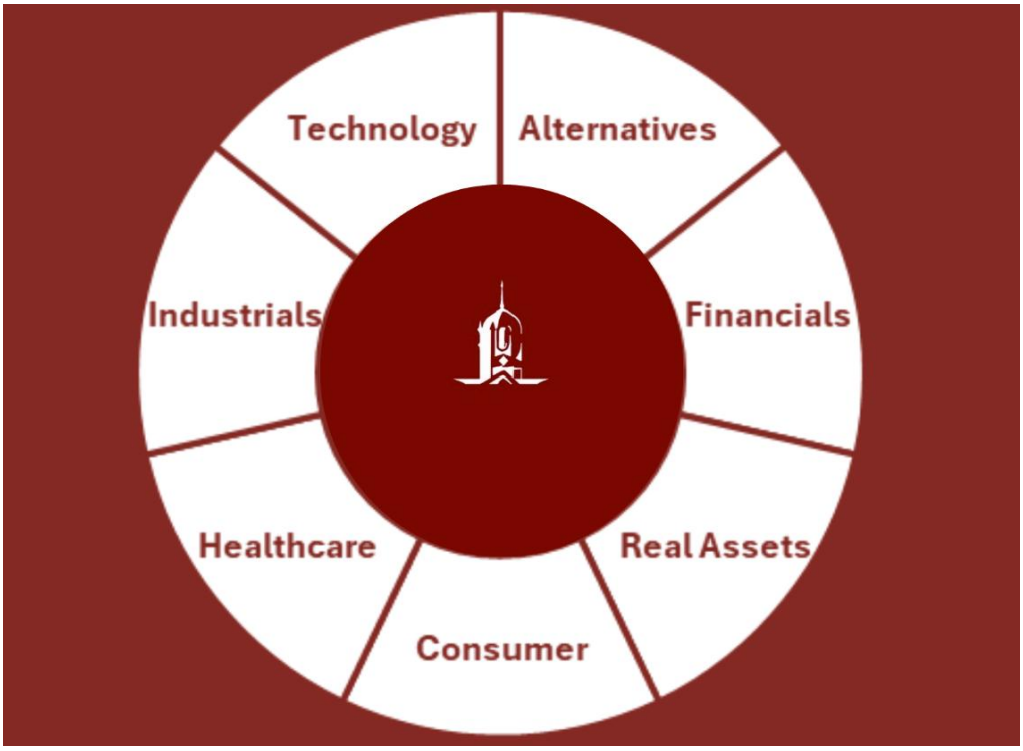
1. Purpose of the Fund

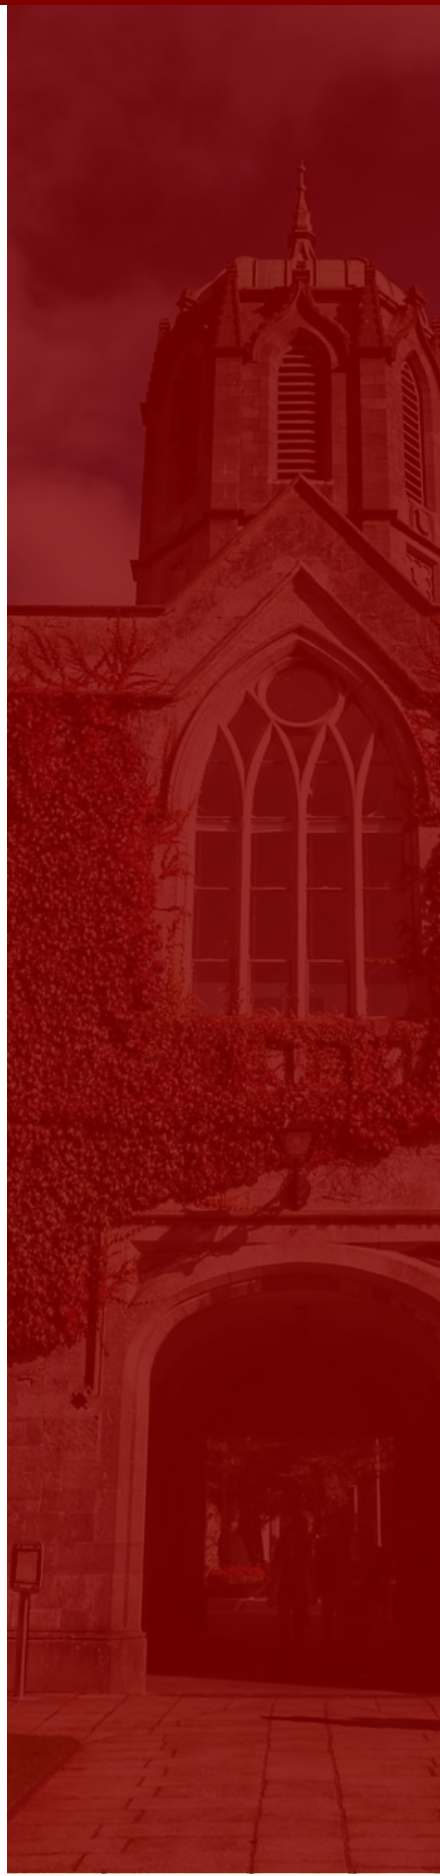
The Student Managed Fund (SMF) provides an invaluable opportunity for students to **experience portfolio management and investment** with the **goal** to apply their research to real life investments to be held by the Fund. The objective of the SMF is to facilitate a learning journey to students who are interested in the market.

With a progressive learning scheme, students will be able to manage both their learning with the SMF as well as with their course. Taking students from first year all the way to final year

The SMF has the intention to invite guest speakers over the course of the academic year where different perspectives in the Investment world will be showcased.

At its core, the SMF is designed to be a **learning tool** for students with an education first ethos, prioritising learning and understanding of the market.





2. Roles and Responsibilites

Student Executive Committee (ExCo): To lead and execute events for the Student Managed Fund, to engage with external bodies as well as to manage all internal affairs of the SMF.

Investment Committee: The Investment Committee is composed of all members of the Student ExCo and all Sector Managers. The Investment Committee has input, but not final say on investment decisions.

Investment Divison

Sector Manager: Project Lead of each Sector, to oversee all research conducted by members of their sector and to provide assistance at every stage of the research process. Ensures accountability of all team members and effective co-ordination with the Macro-Strategists of the Macro-Strategy Division in order to gain a broader macro-economic scope on the equities being studied. Leads investment decisions within their assigned sector. Works with analysts to research and assess opportunities. Presents sector updates and recommendations to the CIO. Ensures investments align with the overall strategy.

Senior Analyst: Conducts in-depth research on companies and trends within their sector. Supports the Sector Manager in making informed investment decisions. Mentors and guides junior analysts in research and analysis. Assists Sector Manager in preparing reports and presentations for investment meetings.

Junior Analyst: Assists in gathering and analysing market data. Prepares reports and presentations on assigned companies. Supports senior analysts and sector managers with research. Gains hands-on experience in investment analysis.

Macro-Strategy Division

The Macro-Strategy Division operates as a **subdivision** of the Investment Division. The Chief Macro-Strategist operates as the **Chairperson** for the Macro-Strategy Division. They help coordinate the Macro-Strategy Division internally in the Fund.

Macro-Strategist: Conducts in-depth research on companies and trends within their sector. Focusing on the macro-economic developments, research and compiles sector reports. Acts as a subdivision of Junior Analyst, specifically focused on macro-economic events.
